**THE WERP**<sup>TM</sup>  
PROTECTING THE EDGE

## The WERP<sup>TM</sup>

aka The Wheel Edge Ring Protector

The Wheel Edge Ring Protector works in conjunction with a Rubber Band that latches onto a wheel rim to enable the tyre [tire] fitter to remove or fit a tyre [tire] to a wheel without damaging the wheel rim.

RED WERP's are available for 4 wheel sizes from 15" to 18". There are 2 rings per single size wheel to fit varying rim edge widths.

1. 14mm to fit rims that have a flatter narrower edge
2. 18mm to fit rims that have a rounder wider edge.

BLACK WERP's are available for 4 wheel sizes from 19" to 22". There are 2 rings per single size wheel to fit varying rim edge widths.

1. 14mm to fit rims that have a flatter narrower edge
2. 18mm to fit rims that have a rounder wider edge.

The Rubber Bands are a crucial part. It protects the wheel rim from the Wheel Edge Ring Protector where in turn the Wheel Edge Ring Protector protects the wheel rim from getting damaged by the tyre [tire] or any other metal components.

There are 3 methods to obtain training.

1. Downloadable PDF.
2. YouTube Videos
3. Online step for step guide.
